TABLE DES DISCIPLINES - FACHREGISTER - INDICE ALFABETICO PER MATERIE - CLASSIFIED INDEX OF SUBJECT-MATTER

Mathématiques et Astronomie – Mathematik und Astronomie – Matematica e Astronomia – Mathematics and Astronomy

Articles généraux – Übersichtsreferate
Articoli riassuntivi – Surveys

Clusius, K., Zur Geschichte des Metermasses, 169.

Brèves communications – Kurze Mitteilungen
Brevi comunicazioni – Brief Reports

Hadwiger, H., und Glur, P., Zur mathematischen Theorie der Signerschen Zerlegungsapparatur zur multiplikativen Verteilung von Substanzen zwischen nichtmischbaren Flüssigkeiten (Theoria), 270.

Physique – Physik – Fisica - Physics

Brèves communications – Kurze Mitteilungen
Brevi comunicazioni – Brief Reports

Frisch-Fay, R., Discontinuous Nature of Stress-Strain Relationship, 619.
Lukiewicz, St., A Method of Measuring the Intensity of Electron Spin Resonance Absorption (Pro Experimentis), 491.

Informations – Informationen – Informazioni – Notes[1]

Congressus 224, 440.
Corrigendum, 112.
Instructiones, 440.
Nobelpreis 1963 für Physik, 661.

Géologie, Minéralogie et Cristallographie (Géographie) – Geologie, Mineralogie und Kristallographie (Geographie) – Geologia, Mineralogia e Cristallografia (Geografia) – Geology, Mineralogy, and Crystallography (Geography)

Articles généraux – Übersichtsreferate
Articoli riassuntivi – Surveys

Callomon, J. H., The Jurassic Ammonite-Faunas of East Greenland, 289.
Cowie, J. W., The Cambro-Ordovician Geology of East Greenland, 281.
Jarvik, E., The Fossil Vertebrates from East Greenland and their Zoological Importance, 284.
Koch, Lauge, Greenland's Morphological and Geological Features and their Problems, 273.

Brèves communications – Kurze Mitteilungen
Brevi comunicazioni – Brief Reports

Bowen, R., Oxygen Isotope Paleotemperature Measurements on Lower Jurassic Belemnoidea from Bamberg (Bavaria, Germany), 401.
Bowen, R., and Fritz, P., Oxygen Isotope Paleotemperature Analyses of Lower and Middle Jurassic Fossils from Pliensbach, Württemberg (Germany), 461.

Informations – Informationen – Informazioni – Notes[1]

Bary, Elisabeth de, 100 Jahre tägliche Wetterkarte (Experientia Majorum), 494.
Bowen, R., et Fontes, J. C., Paléotempératures indiquées par l'analyse isotopique de fossiles du crétacé inférieur des Hautes Alpes (France) (Studiorum Progressus), 268.

Chimie et Chimie physique – Chemie und physikalische Chemie – Chimica e Chimico-Fisica – Chemistry and Physical Chemistry

Articles généraux – Übersichtsreferate
Articoli riassuntivi – Surveys

Hermans, P. H., Röntgenographische Kristallinitätsbestimmungen bei Hochpolymeren, 553.

TABLE ALPHABÉTIQUE DES MATIÈRES - SACHREGISTER INDICE ALFABETICO GENERALE - INDEX OF SUBJECTS

A = Articles généraux – Übersichtsreferate – Articoli riassuntivi – Surveys
B = Brèves communications – Kurze Mitteilungen – Brevi comunicazioni – Brief Reports
C = Nouveaux livres – Buchbesprechungen – Recensioni – Reviews
D = Informations – Informationen – Informazioni – Notes

Confecit R. Jaeger, Mainz

Acatalasémie; étude immunochimique d'hémolysats acatalasiques, *B* 138.
Acetoinsynthese, v. Urämiesyndrom.
N-Acetylneuraminic acid; synthesis of N-acetylneuraminic acid, *B* 342.
Acide glutamique; mise en evidence d'une nouvelle forme combinée de l'acide glutamique dans le latex d'*Euphorbia characias* L., *B* 624.
Acides nucléiques, v. *Vicia faba*.
Acid-fast cells; occurrence of partially acid-fast cells in cultures of genus *Staphylococcus* and genus *Micrococcus*, *B* 345.
Acridotheres tristis, v. Pituitary gland.
ACTH; über die Wirkung von synthetischem ACTH (β^{1-24} Corticotropin) beim Menschen, *B* 320.
–, v. Adrenocorticotropic activity.
ACTH antibodies and their use for a radioimmunoassay for ACTH, *B* 227.
Actinomycetes; distribution of antibiotic-producing *Actinomycetes* in Danish soils, *B* 470.
Actinomycine D; effets de l'actinomycine D sur le développement normal et sur les modifications expérimentales de la morphogénèse de l'œuf de l'oursin *Paracentrotus lividus*, *B* 572.
Action potential; the decremental propagation of the action potential and loss of mechanical response in frog sartorius muscle in the absence of calcium, *B* 40.
Actomyosin, v. Myosin.
Adenine; determination of adenine in hydrolyzates of ribonucleic acids with the aid of comparative titration, *B* 435.
Adenohypophyse; sekretomotorische Fasern und Endigungen in der Adenohypophyse, *B* 589.
Adenosine triphosphatase; histochemical adenosine triphosphatase in the subcommissural organ, *B* 73.
Adénosine triphosphatase et pyrophosphatase des chloroplastes, *B* 5.
Adipose tissue, epididymal; changes in activity of rat epididymal adipose tissue *in vitro* due to time elapsed since last feeding, *B* 149.
Adipose tissue, v. Catecholamines.
Adrenal cortex, v. 3β-Hydroxysteroid dehydrogenase.
Adrenal gland, v. Sexual activity.
Adrenal medullary granules; storage function and amine levels of the adrenal medullary granules at various intervals after reserpine treatment, *B* 479.
Adrenalectomy; the effect of adrenalectomy on the norepinephrine and serotonin content of the brain and on reserpine action in rats, *B* 482.
Adrenaline sensitive receptors; on the presence of adrenaline sensitive receptors at the cerebral cortex of the rabbit, *B* 102.
Adrenals, v. Aldosterone production.
Adrenergic innervation; observation on the adrenergic innervation of the skin, *B* 205.
Adrenocorticotropic activity; *in vitro* exploration of a circadian rhythm in adrenocorticotropic activity of C mouse hypophysis, *B* 158.
Afferents, primary, v. Spinal reflexes.
Agglutinins, v. Glycine soja agglutinins.
Ajmaline, v. Ethiodide formation.
Alarm substances; *A* 113.
Alauda gulgula gulgula; meiotic chromosomes of the small Indian lark, *B* 181.
Albomycin, antibiotic; determination of the structure of the peptide moiety of the antibiotic albomycin, *B* 633.
Alcoolémie, v. Morphine.
Aldoses, v. Germination of conidia.
Aldosterone; a simple method for separation and determination of aldosterone, hydrocortisone and corticosterone, *B* 551.
Aldosterone production of compensated hypertrophic adrenals, *B* 540.
Alga, green; seasonal changes in the nitrate-reducing activity of a green alga, *B* 89.
Alkaloid, v. Laurelliptine.
Alkaloide; über die Alkaloide von *Aspidosperma discolor* A. DC., *B* 297.
Alkaloide aus *Schizozygia caffaeoides* (Boj.) Baill., *B* 244.
Alkaloids of *Aspidosperma discolor* A. DC., *B* 585.
Alkalosis; reactivity of cat skeletal muscle vessels to noradrenaline during induced respiratory alkalosis, *B* 354.
Alloxan, v. Calcification.
Alloxan diabetic, v. Ascorbic acid.

[1] Seules les informations les plus importantes sont indiquées. – Es sind nur die wichtigsten Informationen aufgeführt. – Si riportano soltanto le informazione più importanti. – Only the most important notes are cited.

Amblystoma mexicanum, v. PAS-Glykogen-Reaktion.
Amine release, v. Blood platelets.
Amines, biogenic; evidence for the presence of biogenic amines in pancreatic islets, *B* 139.
Amino acid pattern in tadpole tails, *B* 322.
Amino acids; activation of amino acids in the liver in CCl_4 intoxication, *B* 197.
–; free amino-acids in the snail *Limnaea* and their changes with morphogenesis, *B* 143.
–, v. Induction.
–, v. Lactotransferrin.
–, v. Pyrimidines.
–, v. Thyroxine.
Amino acids, free, in *Limnaea* II, *B* 225.
ε-Aminocapronsäure, v. Encephalomyelitis.
Aminoketones; enzymic oxidation of aminoketones in mammalian blood plasma, *B* 421.
β-Aminopropionitrile; inhibition of germination of *Aspergillus niger* conidia by β-aminopropionitrile and its reversal by certain aldoses, *B* 627.
–; the effect of β-aminopropionitrile (BAPN) on bacteria, *B* 626.
Aminosäuren; dünnschichtchromatographischer Nachweis der Aminosäuren im Urin, *B* 213.
–, v. Neoplasmen.
Ammonite-faunas; the jurassic ammonite-faunas of East Greenland, *B* 289.
Ammonium assimilation; the effect of some surface active drugs on the assimilation of ammonium ions by a strain of *Pseudomonas aeruginosa*, *B* 8.
L'Amnious de l'embryon de poulet peut-il se former en culture *in vitro*, *B* 165.
Anaphylactic shock, v. Histamine shock.
Androgens, anabolic; effect of anabolic androgens on granulation tissue production in the rabbit, *B* 429.
5β-Androstan-17β-ol-3-on-17-acetat; Synthese von 5α- und 5β-Androstan-17β-ol-3-on-17-acetat aus Hyodesoxycholsäure, *B* 128.
Aneuploïdie; influence de l'aneuploïdie sur la différenciation protéique au cours du développement embryonnaire de l'urodèle *Pleurodeles waltlii* Michah, *B* 253.
Angiotensin; potentiation of angiotensis action on smooth muscle by alkaline pH, *B* 572.
Anisops breddini, v. Mosquito antigens.
Anti-bacterial agglutinins; appearance of anti-bacterial agglutinins in X-irradiated rabbits receiving immune spleen nucleoproteins, *B* 537.
Antibiotic activity, v. *Actinomycetes*.
Antibodies, v. ACTH.
Antibody production; experimental observations on the participation of macrophages in the mechanism of antibody production, *B* 582.
Antigenicity; a study on the antigenicity of a human cell line propagated in a heterologous medium, *B* 628.
Antigens, v. Mosquito antigens.
Antikörper; die Bildung von Antikörpern gegen verschiedene Kuhmilch-Proteine bei Neugeborenen, Kindern, Erwachsenen und Graviden, *B* 22.
Antitumour agents, v. Methylhydrazines.
Aortic nerve, v. Sham rage behaviour.
Aphiden, v. Nahrungspflanzenwahl.
Arousal reaction; influence of drugs and neocortical spreading depression on hippocampal 'arousal reaction', *B* 427.
Arrhythmien, ventriculär, v. Oxytocin.
Arrow poison, v. Venom.
Arterial rheology; about Young's modulus in arterial rheology, *B* 373.
Arteries, v. Phosphatase activity.
Ascites tumor; the effect of incubation in phosphate buffer of different pH on the transplantability of the mouse ascites tumor of Ehrlich, *B* 643.
Ascorbic acid; role of ascorbic acid on testicular degeneration in alloxan diabetic rats, *B* 595.
Ascorbic acid, v. 5,6-O-isopropylidene-L-ascorbic acid.
Ascorbic acid synthesis, v. Hormones.
Aspergillus niger, v. Germination of conidia.
Aspidosperma alkaloid; the structure of the *Aspidosperma* alkaloid compactinervine, *B* 467.
Aspidosperma discolor; über die Alkaloide von *Aspidosperma discolor* A. DC., *B* 297.
–, v. Alkaloids.
Atmungsregistrierung, v. Rückatmung.
ATP; Metallionen-katalysierte Hydrolyse von Adenosintriphosphat, *B* 623.
ATPase, v. Mitochondria.
Autoantigénique processus, v. Diméthylaminoazobenzène.
Avian systematics; new biochemical techniques applied to avian systematics, *B* 107.
Axolotl, v. Phosphatase activity.

B*acillus cereus;* spores of microorganisms, chloramphenicol-sensitive and penicillin-resistant incorporation of ^{14}C-diaminopimelic acid into sporulating cells of *Bacillus cereus*, *B* 307.
Bacteria, v. β-Aminopropionitrile.
Bacterium anitratum; production of bulbous and spheroplast-like cells in *Bacterium anitratum* under the action of sulphathiazol, *B* 634.
BAPN, v. β-Aminopropionitrile.
Beilschmiedia elliptica, v. Laurelliptine.
Bengal gram, v. *Cicer arietinum*.
Benzoin; the zinc reduction of benzoin, *B* 225.
Benzpyrene; absorption and excretion of benzpyrene in the cockroach (*Periplaneta americana*), *B* 474.
Blastocysts, v. Implantation.
Blood cells; histochemical localization of lipids in the nuclei of human blood and haemopoietic cells, *B* 622.
Blood flow through the parotid gland of the cat, *B* 260.
Blood plasma, v. Aminoketones.
Blood platelets; effect of dinitrophenol and glucose on amine release from isolated rabbit blood platelets, *B* 19.
Blut, v. Leukocyten.
Bone marrow, v. Histamine.
Bradykinin; the effect of bradykinin on blood flow and heat production in the myocardium, *B* 161.
Brain, v. Adrenalectomy.
–, v. CO_2.
–, v. Enzymes.
BTS, v. Urämiesyndrom.
Bursectomy, v. Homograft response.

Cadinol, v. Sesquiterpenoids.
Caesium-137; Beitrag zur Klärung der Ursachen der Anreicherung von Caesium-137 im Organismus, *B* 25.
Calcification of the islets of Langerhans and renal cortical tubular epithelium in alloxan-treated calciphylactic rats, *B* 314.
Calcium; étude de la distribution du calcium dans l'os haversien avec le radioanalyseur à microsonde électronique, *B* 524.
–; microdetermination of magnesium and calcium in animal tissue, *B* 367.
Calciumbindungsmittel, v. Heparin.
Calving; fractions of calving interval and reproductive efficiency in Italian Friesian cows, *B* 262.
Calziumphosphate, v. Knochenmineralien.
Cancer, v. RNA.
Cancerogenesis, v. Succinic dehydrogenase.
Cannabis resin; examination of cannabis resin by means of ferric chloride test, *B* 267.
Capillary flow of solutions, a re-evaluation of experimental evidence, *B* 250.
Carbonate contents, v. Tooth mineral.
2-Carboxymethylmercapto-4-amino-5-(-*p*-chlorphenyl)-pyrimidine, v. Vaccinia virus.
Carcinogenesis, v. Mast cell reaction.
Cardenolidgenin, v. Glukuronsäurekonjugat.
Cardioinhibitory neurons; nuclear and radicular distribution of cardioinhibitory neurons, *B* 309.
Catalase, v. Diglycyl-glycine.
–, v. Erythrocyte catalase.
–, v. Ferrous complexes.
Catalase activity, v. Acatalasémie.
Catalase reaction, v. Ferrous complexes.
Catecholamine contents, v. X-irradiation.
Catecholamines; thyroid-catecholamine interrelationships in free fatty acids released from adipose tissue, *B* 315.
–, v. DOPA.
Catecholamines of the spinal cord normally and after transection, *B* 229.
Cathepsin-like activities, v. Metamorphose.
Cats, v. Sleep.
Caudate nucleus; influence of the caudate nucleus on hippocampal after-discharges in the rabbit, *B* 207.
CCl_4 intoxication, v. Amino acids.
CCl_4 toxicity, v. Spinal cord.

Centromere; quadruple transversal structure of centromere, *B* 526.
Cephalosporin P_1, v. Helvolinsäure.
Cerebral cortex, v. Adrenaline sensitive receptors.
Cerebral projection of group I afferents in fore-limb muscle nerves of cat, *B* 206.
Cerebrale Organisation, v. ZNS.
Cerebrospinal fluid, v. Homovanillic acid.
Chelate aus Diarylborinsäuren und β-Ketosäureestern, B 68.
Chick embryo, v. Induction.
Chloroacetone; failure of mono-chloracetone to influence 3,4-benzpyrene mouse skin tumorigenesis, *B* 588.
Chloroplastes, v. Adenosine triphosphatase.
Cholesterol content; effect of lysine and threonine deficiency on the endogenous cholesterol content of rat plasma and liver, *B* 188.
Cholinesterase, v. Dihalogenide.
Chromatin, sex, as a marker in some rabbit cells, *B* 240.
Chromatography, v. Deoxy-oligonucleotides, Strip transfer method.
'Chromatoid body' in the spermatogenesis of scorpions, *B* 90.
Chromosome preparation from the intestinal mucosa, *B* 549.
Chromosomen, v. Speicheldrüsenchromosomen.
Chromosomes; influence of Cu^{++} and Zn^{++} ions on the effects of ethyl methanesulfonate (EMS) on chromosomes, *B* 144.
–; on the structure of the chromosomes of *Scilla non-scripta*, *B* 525.
Chromosomes, meiotic, of the small Indian lark, *B* 181.
Cicer arietinum; the distribution of nutrients in the seed parts of Bengal gram, *B* 154.
Circulation, v. Vasopressine.
Climatic factors, v. Wool production.
CO_2; accurate determination of total CO_2 in the brain, *B* 312.
Coenzyme B_{12}; isolation of coenzyme B_{12} from liver of germ-free mice, *B* 398.
Cogitationes, *B* 53, 166, 218, 373, 439.
Collagen disease, v. Skin test.
Colliculus, superior; some responses of the superior colliculus of the cat and their control by the visual cortex, *B* 655.
Compactinervine, v. *Aspidosperma* alkaloid.
Congressus, *B* 168, 224, 440.
Connective tissue repair, v. Monocyte participation.
Contraceptive agent; 3-cyclopenthyl ether of 17α-ethynyl-estradiol a potent anti-gonadotrophic and contraceptive agent in rodents, *B* 249.
Convallatoxol; zur Pharmakologie von Convallatoxol, zugleich ein Beitrag zur pharmakologischen Strukturanalyse von *g*-Strophanthin, *B* 260.
Copulation, v. *Drosophila melanogaster*.
CoQ_{10}; the effect of CoQ_{10} on rat liver mitochondria succinoxidase activity in carbon tetrachloride liver injury, *B* 88.
Corrigendum, *B* 112, 552.
Cortexone, v. 3α,17α,21-trihydroxy-5α-Pregnane.
Corticosterone, v. Aldosterone.
β^{1-24}Corticotropin, v. ACTH.
Courant cytoplasmique; modification de la vitesse du courant cytoplasmique, induite à distance, par l'irradiation, chez *Nitella flexilis*, *B* 198.
Cows, v. Calving.
Ctenophores; experiments on the formation of combs in the *Ctenophores*, *B* 303.
Cu^{++}, v. EMS.
$Cu(CH_3CN)_2$, v. Kupfer.
Culture de l'amnios, v. L'amnious de l'embryon.
Cutaneous afferents, v. Spinal reflexes.
Cuticle, v. Nematode.
Cyclol tripeptide; a synthetic cyclol tripeptide, *B* 126.
3-Cyclopentyl ether of 17α-ethynylestradiol: a potent anti-gonadotrophic and contraceptive agent in rodents, *B* 249.
Cyclophosphamide, v. Precipitin formation.
Cysteine; influence of cysteine on the light production rate of the crustacean *Cypridina* luciferin-luciferase system, *B* 194.
Cytochimie, v. Fixation par perfusion.
Cytotoxic agents, v. Methylhydrazine, Tumour.

Dactynotus jaceae L., v. Saugfrequenz.
Dehydroepiandrosterone; extrahepatic 7α-hydroxylation of dehydroepiandrosterone, *B* 632.
Dehydrogenase, v. Lactic dehydrogenase.
Denervation, v. Saliva.
Deoxyribonuclease I; b-nucleic acid, and the initial step of deoxyribonucleic acid-degradation by deoxyribonuclease I, *B* 192.
Deoxyribonucleic acid; the degradation of deoxyribonucleic acid by new tumour inhibiting compounds: the intermediate formation of hydrogen peroxide, *B* 132.
–; v. Deoxyribonuclease.
Deoxyribo-oligonucleotides; thin-layer chromatography of deoxyribo-oligonucleotides, *B* 49.
Depolymerization, v. DNA.
Depsipeptides; the structure-antimicrobial relation of depsipeptides, *B* 566.
^{14}C-Diaminopimelic acid, v. *Bacillus cereus*.
Diapause; inhibition of diapause in *Pieris rapae* L. by brief supplementary photophases, *B* 185.
Diarylborinsäuren, v. Chelate.
Diazoniumsalze; zur Methodik der Artefaktausschaltung bei Anwendung von Diazoniumsalzen in der Histochemie (Phosphatasen, Esterasen usw.), *B* 266.
Digitalis-Rezeptorenzym, v. Ionenpumpen-ATPase.
Digitoxigeninwirkung; über 'therapeutische' und 'toxische' Digitoxigeninwirkungen auf elektrophysiologische Messgrössen des Meerschweinchenvorhofs, *B* 600.
Diglycyl-glycine; influence of diglycyl-glycine on the radiation sensitivity of catalase, *B* 568.
Dihalogenide; neuartige N,N-substituierte bis-(4-hydroximinoformylpyridinium)-dihalogenide als Reaktivatoren für alkylphosphatgehemmte Cholinesterase, *B* 628.
Dihydrosulfoxidgruppe, v. Electron transfer reaction.
2,2-Dihydroxy-6,6-dinaphthyl disulphide (DDD) diazo blue B reactive granules in the parathyroid gland of the rat and toad, *B* 486.
3,4-Dihydroxyphenylacetic acid; occurrence of 3,4-dihydroxyphenylacetic acid glucoside in abdomen of female locust, *Locusta migratoria* ssp., *B* 231.
Diméthylaminoazobenzène; processus autoantigénique non spécifique chez le rat nourri au diméthylaminoazobenzène, *B* 432.
Dinitrophenol, v. Blood platelets.
2,4-Dinitrophenylhydrazones; thin layer chromatography of 2,4-dinitrophenylhydrazones of aliphatic carbonyl compounds, *B* 323.
Disputandum, *B* 322, 437, 606.
Distamycin A, v. Phage T 1.
DNA; the course of depolymerization of DNA by DNase I, *B* 515.
DNA metabolism, v. RNA.
Dodecylsulfate, v. Ribonucleic acid.
DOPA; der Einfluss von α-Methyl-Dopa auf die Tyroaminwirkung an mit Reserpin vorbehandelten Katzen, *B* 252.
–; effect of α-methyl-DOPA on myocardial catecholamines, *B* 573.
–; the effect of DOPA on spinal reflexes from the FRA (Flexor reflex afferents), *B* 654.
α-methyl Dopa, v. α-Methylnoradrenaline.
Drosophila melanogaster; genotypical differences between stocks of *Drosophila melanogaster* revealed from culturing *in vitro*, *B* 527.
–; the 'brown spots' (bsp) character of *Drosophila melanogaster* and its relation to copulation, *B* 360.
–, v. Mutant expression.
–, v. Speicheldrüsenchromosomen.
Drüsensekrete; Untersuchungen über Bildung und Weitergabe von Drüsensekreten bei *Formica* (*Hymenopt. Formicidae*) mit Hilfe der Radioisotopenmethode, *B* 412.
Dünnschichtchromatogramm, v. C_{19}-Steroide.
Dünnschichtchromatographie, v. Aminosäuren.

Ebertlinien, v. Glanzstreifen.
Ehrlich tumor, v. Ascites tumor.
Einfadenelektrometer; die Varianz der persönlichen Ablesefehler beim Einfadenelektrometer und ihre pharmakologische Beeinflussbarkeit, *B* 439.
Eiweissfraktionen, v. Thrombocytenzahl.
Electron microscopy; the preparation of holey films for electron microscopy, *B* 433.
Electron spin; a method of measuring the intensity of electron spin resonance absorption, *B* 491.
Electron transfer reactions; biological and pharmacological significance of the expanded S-outer shell in electron transfer reactions, *B* 327.
Eledoisin, v. Peptides, synthetic.
Eledoisin as powerful vasodilating and hypotensive agent in man, *B* 44.

Embryos, v. Sea urchin.
EMS; influence of Cu^{++} and Zn^{++} ions on the effects of ethyl methanesulfonate (EMS) on chromosomes, *B* 144.
Emulsion, v. Zucker.
Encephalomyelitis; Beeinflussung der experimentellen allergischen Encephalomyelitis durch ε-Aminocapronsäure, *B* 421.
Enniatin B; synthesis of enniatin B, *B* 71.
Enzymes; distribution of amino-acid activating enzymes in rabbit's brain, *B* 186.
–, v. Trigeminal ganglion cells.
–; decreased activities of liver microsomal drug metabolizing enzymes in the rats bearing Walker carcinosarcoma, *B* 31.
–; studies on the action of some enzymes on the cuticle of *Fasciola hepatica* L., *B* 3.
Enzyme(s) from a *Streptomyces* sp. to prepare mould protoplasts, *B* 82.
Enzymes, lytic, v. Protoplasts of yeasts.
Epialloyohimban-16α-carboxylate, v. Reserpine.
Epimérisation, v. 4-Tertiobutylcyclohexanol.
ERG; zentrifugale, efferente Einflüsse auf das Schwellen-ERG, *B* 458.
Erinaceus europaeus, v. 5-Hydroxytryptamine.
Erythrina alkaloids; absolute configuration of the spiro carbon atom of the erythrina alkaloids: evidence from optical rotatory dispersion, *B* 108.
–; absolute configuration of the spiro carbon atom of the erythrina alkaloids: evidence from optical rotatory dispersion, *B* 660.
Erythrocyte catalase in liver cirrhosis and in experimental liver injury, *B* 469.
Erythrocyten; partielle Sprengung der Erythrocyten, *B* 583.
–, v. GSH.
–, v. Pentose phosphate pathway.
–, v. Plasmaproteinfilm.
Esterase activity of leucocyte proteins and their labelling with radioactive diisopropylfluorophosphate, *B* 257.
Ethiodide formation and the stereochemistry of ajmaline at C-21, *B* 460.
Ethylmethanesulfonate, v. EMS.
Euphorbia characias L., v. Acid glutamique.
Experientia majorum, *B* 494.
Experimentis, pro-, *B* 48, 162, 211, 266, 323, 367, 432, 491, 547, 606, 660.

Fasciola *hepatica* L., v. Enzymes.
Fat diet, v. Liver steatosis.
Fatty acids; a group of fatty acids with 'tetramethylene interruption' in the double bond system, *B* 522.
–, v. Catecholamines.
–, v. Psilocybin.
Fatty acids of the deposit lipids in the hibernant, *B* 403.
Feeding response of adult *Tribolium* to carbohydrates in relation to their utilization, *B* 23.
Ferric chloride test, v. Cannabis resin.
Ferrous complexes in the catalase reaction, *B* 80, 606.
Fette; zur polarographischen Untersuchung von Peroxiden und oxydierten Fetten, *B* 466.
Fibrinolysin; chromatographic separation of an inhibitor reversibly associated with fibrinolysin in the serum of guinea-pig, *B* 357.
Fixation par perfusion; avantages et inconvénients de la fixation par perfusion du tissu nerveux à la lumière d'une donnée de cytochimie, *B* 162.
Flamingose raise their young on a liquid containing blood, *B* 532.
Flexor reflex afferents, v. DOPA.
Food intake patterns from weaning to adulthood in male and female rats with hypothalamic lesions, *B* 541.
Formica, v. Drüsensekret.
Fructose, v. Resorcinol method.
FSH; the antigenicity of sheep follicle stimulating hormone, *B* 92.
FSH-content, v. Oestradiol.
Funambulus pennanti, v. Sexual activity.
Fusidic acid; the location of the ring C hydroxylgroup in fusidic acid, *B* 521.

Galactose intoxication, pathologic study in the chick, *B* 349.
Gallen, v. Neoplasmen.
Germination; on the mechanism of spore germination in *B. subtilis*. Permeability and germination by pyruvate, *B* 152.
Germination of conidia; inhibition of germination of *Aspergillus niger* conidia by β-aminopropionitrile and its reversal by certain aldoses, *B* 627.
Gerstenwurzeln, v. Phosphatenaufnahme.
Geschlechtschromatinkörper, v. Chromatin.
Gewebekultur, v. Zellteilung.
Glanzstreifen; über die submikroskopische Organisation der Glanzstreifen (Eberthlinien) der Vorhof- und Kammermuskulatur des Herzens, *B* 415.
Glioma; 5-hydroxytryptamine content of glioma, *B* 187.
Globuline anormale; apparition précoce d'une globuline anormale dans la rate du rat nourri au DAB, *B* 42.
Glomerular and proximal tubular lesions due to insulin in rabbits, as seen by electron microscopy, *B* 637.
Glucose, v. Blood platelets.
Glucose-6-phosphate dehydrogenase, v. Haemoglobin variants.
Glucose transport, v. Sodium transport.
Glukuronsäurekonjugat eines Cardenolidgenins (3-Epi-digitoxigenin), *B* 472.
Glutathione; the oxidation of glutathione with formic acid and hydrogen peroxide, *B* 324.
Glycéraldéhyde-3-phosphate déshydrogénase; activité de la glycéraldéhyde-3-phosphate déshydrogénase dans la rétine du lapin et dans la rétinite pigmentaire expérimentale provoquée par le monoïodacétate. Etude histo-chimique, *B* 236.
Glycine soja agglutinins; specificity of glycine soja agglutinins, *B* 625.
Glycolyse anaérobie au niveau des lobes optiques isolés de l'embryon de poulet, *B* 91.
Gona-1,3,5(10)-trien-17-ones; totally synthetic (±)-13-alkyl-3-hydroxy and methoxy-gona-1,3,5(10)-trien-17-ones and related compounds, *B* 394.
Greenland, East; the Jurassic ammonite-faunas of East Greenland, *B* 289.
–; the cambro-ordovician geology of East Green land, *B* 281.
–; the fossil vertebrates from East Greenland and their zoological importance, *B* 284.
Greenland expedition; some geological and palaeontological results of the Danish East Greenland expedition 1926–58, conducted by Lauge Koch, *A* 273.
Greenland's morphological and geological features and their problems, *A* 273.
Grössenwachstum, v. Speicheldrüsenchromosomen.
Growth hormone, v. Liver steatosis.
GSH; the effect of sodium nitrite on red cell GSH, *B* 96.
Guanethidine; effects of guanethidine on salivary glands, *B* 104.
Gulf of Naples; preliminary notes on the *Ostracoda* of the Gulf of Naples, *B* 368.

Haemoglobin variants and glucose-6-phosphate dehydrogenase in Indian sheep and goats, *B* 472.
Haemolytic reactions, v. Liquoid.
Haemopoetic cells, v. Blood cells.
Hauthomotransplantate; verlängerte Überlebenszeit von Hauthomotransplantaten bei Mäusen durch ein Methylhydrazinderivat, *B* 546.
Heart, v. Norepinephrine.
–, v. Starling's law.
Heat production, v. Bradykinin.
HeLa cells, v. Antigenicity.
Helvolinsäure; zur Konstitution von Helvolinsäure und Cephalosporin P_1, *B* 565.
Heparin; Förderung der gastrointestinalen Resorption von Heparin durch Calciumbindungsmittel, *B* 141.
Herz, v. Digitoxigeninwirkung.
–, v. Glanzstreifen.
Herzmuskel, v. Ionenpumpen-ATPase.
Heterodera rostochiensis, v. Nematode.
Hibernation; central nervous system and hibernation, *A* 441.
–, v. Fatty acids, X-irradiation.
–, v. 5-Hydroxytryptamine.
–; occurrence of hibernation in the golden hamster, *Mesocricetus auratus* Waterhouse, *B* 363.
Hippocampal after-discharges, v. Caudate nucleus.
Hippocampus-Aktivität, v. Arousal reaction.
Hirudinaria granulosa, v. Nephridia.

C^{14}-Histamine; urinary excretion of C^{14}-histamine and metabolites in cats after C^{14}-histamine given intravenously, and into the cerebral ventricles, *B* 43.
Histamine formation in bone marrow, *B* 182.
Histamine formation in human wound tissue, *B* 243.
Histamine shock; the effect of inhalatory adaptation to histamine on histamine shock and the anaphylactic shock, *B* 258.
Histochemie, v. Diazoniumsalze.
Hochpolymere, v. Kristallinitätsbestimmungen.
Holey films, v. Electron microscopy.
Homograft response and lymphocyte level in thymectomized and/or bursectomized ducks, *B* 484.
Homografts, v. Tolerance.
Homovanillic acid; on the occurrence of homovanillic acid and 3-methoxy-4-hydroxymandelic acid in human cerebrospinal fluid, *B* 359.
Hooksches Gesetz, v. Stress-strain.
Hormones; androgenic and anabolic hormones, a new group of substances stimulating endogenous ascorbic acid synthesis in the rat, *B* 426.
–, v. Oestrone.
–, v. Steroid hormones.
–, v. Yoshida sarcoma.
5-HT, v. Glioma.
Hydralazine, v. *Lupus erythematosus*.
Hydrochlorothiazide; an extrarenal effect of hydrochlorothiazide, *B* 544.
Hydrocortisone, v. Aldosterone.
Hydrogen peroxide, v. Deoxyribonucleic acid.
Hydrolyse, v. ATP.
7α-Hydroxylation, v. Dehydroepiandrosterone.
3β-Hydroxysteroid dehydrogenase; histochemistry of 3β-hydroxysteroid dehydrogenase in monkey adrenal cortex, *B* 569.
5-Hydroxytryptamine; synthesis of 5-hydroxytryptamine in the American cockroach, *B* 9.
–, v. γ-irradiation.
5-Hydroxytryptamine content of the brain and some other organs of the hedgehog (*Erinaceus europaeus*) during activity and hibernation, *B* 156.
5-Hydroxytryptamine of the spinal cord normally and after transection, *B* 359.
Hyodesoxycholsäure, v. 5β-Androstan-17β-ol-3-on-17-acetat.
Hypophyse, v. Adenohypophyse.
Hypophysial system, v. Vasopressin.
Hypophysis, v. Adrenocorticotropic activity.
Hypotensive agent, v. Eledoisin.
Hypothalamic lesions; alteration of relative preference for sugar and saccharine caused by ventromedial hypothalamic lesions, *B* 539.
–, v. Food intake patterns.
–; the response of male and female rats with hypothalamic lesions to low and high environmental temperatures, *B* 26.
Hypothalamo system, v. Vasopressin.
Hypothermia, v. Thyroid hormone.

IHA, v. Isonicotinyl hydrazone of acetaldehyde.
Imidazolealkylamines; occurrence of new imidazolealkylamines (spinaceamine and 6-methylspinaceamine) in skin extracts of *Leptodactylus pentadactylus labyrinthicus*, *B* 346.
Immunological reaction; suppression of the immunological reaction by methylhydrazines, a new class of antitumour agents, *B* 304.
Implantation, differential, of twin blastocysts in *Megaderma* (*Microchiroptera*), *B* 641.
Induction; paper chromatographic study of the role of sulphur-containing amino acids in the process of induction in the chick embryo, *B* 155.
Infezioni da virus, v. Triazine derivates.
Ink-writer; a simple ink-writer for class experiments, *B* 432.
Insects, cavernicoles, v. Ptérines.
Instructiones, *B* 376, 440.
Insulin, v. Glomerular and tubular lesions.
Inulin-like substance, v. Renal clearance.
Ionenaustauscher, v. Vitamintrennung.
Ionenpumpen-ATPase; über die Identität der Ionenpumpen-ATPase in der Zellmembran des Herzmuskels mit einem Digitalis-Rezeptorenzym, *A* 452.
Ionizing radiation; effect of ionizing radiation on the testes of rat, *B* 476.
γ-Irradiation; the effect of γ-irradiation on the amount of 5 hydroxytryptamine in the gut and spleen in the early phase after irradiation, *B* 647.
Islets of Langerhans, v. Calcification.
Isonicotinyl hydrazone of acetaldehyde: preliminary studies on the hemostatic activity of the isonicotinyl hydrazone of acetaldehyde, *B* 133.
5,6-O-Isopropylidene-L-ascorbic acid; preparation of 5,6-O-isopropylidene-L-ascorbic acid, *B* 619.
Isoreserpiline-ψ-indoxyl, v. Rauwolfia alkaloids XLVII.
Isovaleriansäure, v. Magnamycin.
Isoxsuprine; the effect of isoxsuprine on the motility pattern of the isolated human myometrium, *B* 650.

Jodacetat, v. Mikrophonpotentiale.
Jurassic fossils, v. Palaeotemperature analyses.

Kapillarität; Messung der Kapillarität in engsten Röhrchen, *B* 547.
Ketones II, steroidal; oxidation of steroidal ketones II selenium dioxide catalyzed hydrogen peroxide oxidation of 4-en-3-one, *B* 396.
β-Ketosäureester, v. Chelate.
Kinetin, v. P-Aufnahme.
Knochenmineralien; über die Basizität der Knochenmineralien, *B* 459.
Konversion; Zuchtversuche mit geschlechtskonvertierten Krallenfröschen (*Xenopus laevis*), *B* 536.
Kristallinitätsbestimmungen; röntgenographische Kristallinitätsbestimmungen bei Hochpolymeren, *A* 553.
Kuhmilch-Proteine, v. Antikörper.
Kupfer; $Cu(CH_3CN)_2$, ein Mittel zum Studium homogener Reaktion des einwertigen Kupfers in wässriger Lösung, *B* 488.

L*acerta agilis*, v. Mast cell reaction.
Lactic dehydrogenase; factors which influence normal values for serum lactic dehydrogenase in mice, *B* 97.
Lactotransferrin; the amino acid composition of human and bovine lactotransferrins, *B* 299.
Längenmass, v. Metermass.
Language; limits of language, *B* 56.
Laurelliptine; the structures of laurelliptine, a new aporphine alkaloid, and thalicmidine, *B* 1.
Leberhomogenat, v. Urämiesyndrom.
Leggada minutoides, v. Polymorphisme chromosomique.
Leptodactylus pentadactylus labyrinthicus, v. Imidazolealkylamines.
Leucocyte proteins, v. Esterase activity.
Leukocyten; Gewinnung von Leukocyten aus Rinderblut unter Verwendung von Wasser als Hämolytikum, *B* 406.
Leukosis virus, avian; the problem of the phage-like structure of the avian leukosis virus, *B* 635.
LH-content, v. Oestradiol.
Licht, v. Lichtempfindliche Systeme.
Lichtempfindliche Systeme; reversible Umsteuerung lichtempfindlicher Systeme bei Pflanzen und Tieren, *B* 53.
Light production; influence of cysteine on the light production rate of the crustacean *Cypridina* luciferin-luciferase system, *B* 194.
Limnaea, v. Amino acids.
–, v. Morphogenesis.
Lipid metabolism; factor in human urine inhibiting lipid metabolism, *B* 319.
Lipids, deposit; fatty acids of the deposit lipids in the hibernant, *B* 403.
Lipids, v. Blood cells.
Liquoid; interaction between 'liquoid' (sodium polyanetholsulphonate) and lysozyme in the immune haemolytic reaction, *B* 36.
Liver, v. Enzymes.
–; immunoelectrophoresis of soluble proteins isolated from cellular fractions of regenerating rat liver, *B* 419.
–, v. Phosphorylase.
–, v. Sulfhydryl group concentration.
Liver cells, v. RNA.
Liver cirrhosis, v. Erythrocyte catalase.

Liver injury; the effect of CoQ_{10} on rat liver mitochondria succinoxidase activity in carbon tetrachloride liver injury, *B* 88.
–, v. Erythrocyte catalase.
Liver steatosis; influence of previous feeding with a high-fat diet on liver steatosis produced by acute starvation or growth hormone in mice, *B* 47.
Lobes optiques, v. Glycolyse.
Locusta migratoria ssp., 3,4-Dihydroxyphenylacetic acid.
Lovell, Pryce and Boake's guinea-pig skin test, v. Skin test.
Luciferin-luciferase system, v. Light production.
Lupinus albus, v. Wachstumshemmung.
Lupus erythematosus; demonstration of anti-hydralazine antibody in hydralazine induced *Lupus erythematosus*, *B* 10.
Lymph; immunelectrophoretic analysis of the lymph, *B* 98.
Lymphocyte level, v. Homograft response.
d-Lysergyl-L-valin-methylester, ein neues, natürliches Mutterkornalkaloid, *B* 397.
Lysine, v. Cholesterol content.
Lysozyme; interaction between 'liquoid' (sodium polyanethol-sulphonate) and lysozyme in the immune haemolytic reaction, *B* 36.

Macrophages, v. Antibody production.
Magnamycin; über die Herkunft der Isovaleriansäure im Magnamycin, *B* 6.
Magnesium; microdetermination of magnesium and calcium in animal tissue, *B* 367.
Mass spectrometry; determination of mass spectra of non-volatile substances, *B* 211.
Massenspektrographie, v. Steroide.
Mast cell reaction during chemical skin carcinogenesis of the lizard *Lacerta agilis*, *B* 20.
Megaderma lyra, v. Implantation.
Megoura viciae, v. Nahrungspflanzenwahl.
Melatonin, v. Thyroid activity.
Membrane antigens; observations on the species-nonspecificity of the human renal and placental basement membrane antigens, *B* 517.
Merkmalsausprägung, v. Mutant expression.
Mescaline, v. Psychotomimetic agents.
Mesencephalic reticular formation, v. Reticular formation.
Mesocricetus auratus, v. Hibernation.
Metabolism, v. RNA.
Metallionen, v. Phosphagene.
Metamorphose; histochemical localization of acid phosphatase and cathepsin-like activities in regressing tails of *Xenopus* larvae at metamorphosis, *B* 352.
Metermass; zur Geschichte des Metermasses, *A* 169.
3-Methoxy-4-hydroxymandelic acid, v. Homovanillic acid.
3-Methyl-4-dimethylaminoazobenzene, v. Succinic dehydrogenase.
Methylhydrazine derivatives; cytological investigations with a new class of cytotoxic agents: methylhydrazine derivatives, *B* 131.
Methylhydrazine derivatives, a new class of cytotoxic agents, *B* 129.
Methylhydrazines; suppression of the immunological reaction by methylhydrazines, a new class of antitumour agents, *B* 304.
Methylhydrazinderivat, v. Hauthomotransplantate.
α-Methylnoradrenaline; release by sympathetic stimulation of α-methylnoradrenaline stored in the heart after administration of -methyldopa, *B* 658.
4α-Methyl-5α-stigmasta-7,24(28)-dien-3β-ol aus *Solanum tuberosum* sowie über die Identität dieser Verbindung mit α_1-Sitosterin, *B* 69.
14α-Methyl testosterone, v. Steroids.
Mg^{++}, v. Mitochondria.
Micrococcus, v. Acid-fast cells.
Microflora, nephridial, v. Nephridia.
Micromonospora spp., v. Protoplasts of yeasts.
Microradiography, v. Radiography.
Mikrophonpotentiale, cochleare; die Beeinflussung der Mikrophonpotentiale durch endocochleare Applikation von Jodacetat, *B* 413.
Milk, v. Riboflavin.
Minovin, v. Vincadifformin.
Mitochondria, v. CoQ_{10}.
–; on the origin of the Mg^{++}-activated ATPase of muscle mitochondrial preparations, *B* 523.
Mitosis; initiation of mitosis in post-mitotic nuclei of *Physarum polycephalum*, *B* 13.
Mitosis stimulation, v. Radiation.
Monoamines in sympathetic ganglia studied with fluorescence microscopy, *B* 580.
Monocyte participation in connective tissue repair, *B* 577.
Monofluoroacetic acid; chromatographic isolation of monofluoroacetic acid from *Palicourea marcgravii* St. Hil, *B* 586.
Monolayers, v. Steroid hormones.
Monomere, v. Polymerisationen.
Morphine et le Phénobarbital modifient-ils le taux de l'alcoolémie provoquée chez le cobaye, *B* 602.
Morphogénèse, v. Actinomycine D.
Morphogenesis, v. Amino acids.
–, v. Neutral red staining.
–; progressive localization of neutral-red positive region with morphogenesis in *Limnaea*, *B* 317.
Mosquito antigens; the agar gel-diffusion technique as a method of tracing mosquito antigens in the water bug *Anisops breddini* (Notonectidae), *B* 106.
Motility pattern, v. Isoxsuprine.
Mucins, epithelial; masking action of basic proteins on sialic acid carboxyls in epithelial mucins, *B* 230.
Mucopolysaccharides, v. Parathyroidectomy.
Mucoproteine, v. Wachstumshemmung.
Muscle; the decremental propagation of the action potential and loss of mechanical response in frog sartorius muscle in the absence of calcium. *B* 40.
–, v. Noradrenaline.
–, v. Starling's law.
Muscle, smooth, v. Angiotensin.
Muscular afferent excitation, v. Reflex activity.
Muscular contraction; a calcium dependent link beyond the electrical excitation of the membrane in muscular contraction, *B* 40.
Mutant expression in inbred lines and grosses, *B* 405.
Mutterkornalkaloid; *d*-Lysergyl-L valin-methylester, ein neues, natürliches Mutterkornalkaloid, *B* 397.
Myocardial circulation; effects of continued pentaerythritol tetranitrate administration on myocardial circulation and metabolism, *B* 254.
Myocardium, v. Bradykinin.
Myometrium, human, v. Potassium.
–, v. Isoxsuprine.
Myosin; bovine muscle proteins, IV. preparation of myosin and actomyosin, *B* 493.
Myriapoda, v. *Polydesmus collaris collaris*.

Nahrungspflanzenwahl; zum Problem der Nahrungspflanzenwahl der Aphiden, *B* 204.
$NaNO_2$, v. GSH.
2-Naphthylamine, v. Stress.
Nebennierenmarkgranula, v. Ribonuclease.
Nematode; masked polyphenols in the cuticle of a cyst forming nematode, *B* 256.
Neocortical spreading depression; influence of drugs and neocortical spreading depression on hippocampal 'arousal reaction', *B* 427.
Neoplasmen; genetische und biochemische Untersuchungen über die Bedeutung der Amino- und Nucleinsäuren im Ursachengefüge von Neoplasmen (Tumoren und Gallen). Ein Dauermodifikations- bzw. Prädeterminationsphänomen, *B* 219.
Neopodophyllotoxin, v. Podophyllinsäure.
Nepetalactones, v. Terpenoids.
Nephridia; structure of the nephridia of the Indian cattle leech *Hirudinaria granulosa* (Savigny) with remarks on their nephridial microflora, *B* 402.
Nepseudin; structure of nepseudin, synthesis of dehydronepseudin, *B* 621.
Nerve activity; modifications of the vestibular nerve activity by stimulation of the efferent vestibular system, *B* 39.
Nerve tissues, v. Fixation par perfusion.
Nerves, v. Cerebral projection.
Nervous system, v. Hibernation.
Neurons, v. Cardioinhibitory neurons.
–, v. Ribosomes.
Neurosecretion, *B* 210.
Neutral red staining; the changing pattern of neutral red staining with morphogenesis in certain polychaete embryos, *B* 533.
Nissl-Substanz, v. Ribosomes.

Nitella flexilis, v. Courant cytoplasmique.
Nitrate reducing activity, v. Alga, green.
Nobelpreisträger, *B* 661.
Nomographische Bestimmung des logarithmischen Durchschnittes von Versuchsdaten und die graphische Ermittlung von Regressionswerten, *B* 218.
H^3-Noradrenaline, v. Phenothiazine derivatives.
Noradrenaline; reactivity of cat skeletal muscle vessels to noradrenaline during induced respiratory alkalosis, *B* 354.
Norepinephrine; removal of infused norepinephrine by the cat's spleen; mechanism of its inhibition by phenoxybenzamine, *B* 601.
–, v. Adrenalectomy.
Norepinephrine from tyrosine in isolated rabbit heart, *B* 491.
Novobiocin; die Synthese des Novobiocins, *A* 383.
b-Nucleic acid, v. Deoxyribonuclease I.
Nucleinsäuren, v. Neoplasmen.
Nucleoproteins, v. Anti-bacterial agglutinins.
Nucleotides, v. Deoxy-oligonucleotides.
Nystagmus and related phenomena in *Sepia officinalis*, *B* 29.

O_2-Verbrauch, v. Zebra finch.
Ocoteine; the structure of ocoteine (thalicmine), *B* 294.
Oestradiol; effects of oestradiol and progesterone on FSH and LH contents of the pituitaries and blood of ovariectomized ewes, *B* 430.
Oestrone; total synthesis of oestrogenic hormones, *B* 177.
Osazonreaktion; über den Mechanismus der Osazonreaktion, *B* 338.
Osmiophilic granules, v. Pineal body.
Osteotomie; zum histologischen Bild der sogenannten Primärheilung der Knochenkompakta nach experimentellen Osteotomien am Hund, *B* 593.
Ostracoda, v. Gulf of Naples.
Oxidation, enzymic, v. Aminoketones.
Oxytocin; antiarrhythmic action of synthetic oxytocin in anesthetized man, *B* 160.
–, v. Vasopressin.

P-Aufnahme; Förderung der P-Aufnahme von Bohnenpflanzen durch Kinetin, *B* 587.
Paleotemperature; oxygen isotope paleotemperature measurements on lower jurassic *Belemnoidea* from Bamberg (Bavaria, Germany), *B* 401.
Paleotemperature analyses of lower and middle jurassic fossils from Pliensbach, Württemberg (Germany), *B* 461.
Paléotempératures indiquées par l'analyse isotopique de fossiles du crétacé inférieur des Hautes-Alpes (France), *B* 268.
Palicourea marcgravii, v. Monofluoroacetic acid.
Pancreatic islets; evidence for the presence of biogenic amines in pancreatic islets, *B* 139.
–, v. Sulfur.
Paper electrophoresis, v. Serum.
Paracentrotus, v. Sea urchin.
Paracentrotus lividus, v. Actinomycine D.
Parathyroidectomy; changes in vascular permeability and dermal mucopolysaccharides in the female rat after parathyroidectomy, *B* 99.
Parotid gland; blood flow through the parotid gland of the cat, *B* 260.
PAS-Glykogen-Reaktion im Bereich der Ringbinden bei *Amblystoma mexicanum Cope*, *B* 11.
Pentaerythritol tetranitrate, v. Myocardial circulation.
Pentose phosphate pathway; local metabolic response to physio-pathological demands, *B* 437.
–; the changes of the pentose phosphate pathway in red cells during their ageing *in vitro*, *B* 305.
Peptides, synthetic, related to eledoisin (part I), *B* 339.
Peptolide, *A* 57.
Periplaneta americana, v. Benzpyrene.
–, v. 5-Hydroxytryptamine.
Peroxide, v. Fette.
Phage T 1; selective inhibition of the multiplication of phage T 1 in *E. coli* K 12, *B* 134.
Phenobarbital, v. Morphine.
Phenobarbital markedly increases liver weight in Walker carcinosarcoma bearing rats, *B* 30.
Phenothiazine derivatives; relation between blockade of H^3-noradrenaline uptake and pharmacological actions produced by phenothiazine derivatives, *B* 318.
Phenoxybenzamine, v. Norepinephrine.
Phoenicopterus ruber, v. Flamingoes.
Phosphagene; die katalytische Wirkung von Metallionen auf die Stabilität von Phosphagenen, *B* 514.
Phosphatase, v. Metamorphose.
Phosphatase activity; localized areas of high alkaline phosphatase activity in the endothelium of arteries in the axolotl, *B* 21.
Phosphationenaufnahme; die thermodynamischen Grössen der Aktivierung der Phosphationenaufnahme durch Gerstenwurzeln, *B* 298.
Phosphorylase; increased inactivation of polysaccharide phosphorylase in liver homogenates from rats treated with 3,5,3-triiodo-L-thyronine, *B* 423.
Photolyse des Wassers, v. Electron transfer reaction.
Photophases, v. Diapause.
Photopic frequency of fusion, v. Psilocybin.
Photosensitivity of the pineal organ in the teleost, *Salmo irideus* (Gibbons), *B* 642.
Phoxinus phoxinus, v. Thiourea treatment.
Phyllobates bicolor, v. Venom.
Physarum polycephalum, v. Mitosis.
Pieris rapae L., v. Diapause.
Pigments, v. Ptérines.
Pineal body; the osmiophilic granules of the pineal body in rats, *B* 639.
Pineal body and urinary sodium excretion in the rat, *B* 264.
Pineal organ, v. Photosensitivity.
Pinus parviflora, v. Sesquiterpenoids.
Piperazine; theophylline plasma levels following the oral and rectal administration of theophylline *p*-aminobenzoate of piperazine, *B* 407.
Pituitary gland; biparitate nature of the pituitary gland in *Acridotheres tristis, linnaeus*, *B* 531.
Placental antigens, v. Membrane antigens.
Plantar reflexes in cat; *B* 487.
Plasmaproteinfilm; die normale Zusammensetzung des Plasmaproteinfilms an der Oberfläche von Kaninchenerythrocyten, *B* 571.
Pleurodeles waltlii, v. Aneuploidie.
Podophyllinsäure; Synthese des Neopodophyllotoxins und der Podophyllinsäure, *B* 391.
Poliovirus, v. Ribonucleic acid.
Polychaete embryos, v. Neutral red staining.
Polydesmus collaris collaris (Koch); the secretion of the myriapod *Polydesmus collaris collaris* (Koch), *B* 409.
Polyfructosan-S, v. Renal clearance.
Polymerisationen, stereospezifische, cyclischer Monomerer, *A* 609.
Polymorphisme chromosomique; un cas nouveau de polymorphisme chromosomique intraspécifique chez un mammifère (*Leggada minutoides* Smith. Rodentia-Muridae), *B* 145.
Polyphenols; masked polyphenols in the cuticle of a cyst-forming nematode, *B* 256.
Polyvinylalkoholschwämme, v. Tumor.
Porphyrin; chromatographic identification of porphyrins in several species of *Turbellaria*, *B* 77.
Potassium and the reactivity pattern of the isolated human myometrium to prostaglandin from human seminal fluid, *B* 180.
Potato, v. *Stysanus stemonites*.
Potatoes, v. Protease inhibitors.
Praecipitinreaktion, v. Winterschlaf.
Praemia, *B* 112.
Préalbumine sérique; nouvelle méthode de préparation de la préalbumine sérique et principales caractéristiques physico-chimiques, *B* 48.
Precipitin formation; inhibition of precipitin formation in the guinea-pig with cyclophosphamide, *B* 591.
3α, 17α, 21-trihydroxy-5α-Pregnane (allotetrahydro-17α-hydroxy-cortexone) and 3α,21-dihydroxy-5α-pregnane (allotetrahydro-cortexone) in human urine, *B* 657.
Primärheilung, v. Osteotomie.
Progesteron, v. Oestradiol.
Progressus, studiorum-, *B* 108, 268, 324, 368, 437.
Prostaglandin, v. Potassium.
Protease inhibitors; gel filtration of protease inhibitors from potatoes, *B* 151.
Protein, v. Tuberkulin.
Proteindifferenzierung, v. Aneuploidie.
Proteins, v. Regeneration.
–, v. *Tribolium confusum*.
Proteins, basic, v. Sialic acid carboxyls.
Protoplasts, v. Enzyme(s).

Protoplasts of yeasts; the use of lytic enzymes of *Micromonospora* spp. to prepare protoplasts of yeasts, *B* 581.
Pseudomonas aeruginosa, v. Ammonium assimilation.
Psilocybin; inter-relations of the effects of psilocybin on subjective sensation, photopic critical frequency of fusion, and circulating non-esterified fatty acids, *B* 37.
Psychotomimetic agents related to mescaline, *B* 127.
Ptérines; sur la présence de ptérines dans les insects cavernicoles, *B* 148.
Purines, v. Pyrimidines.
Pyrimidines; applications of oscillographic polarography in photochemistry of some pyrimidines, purines and amino acids, *B* 392.
-, v. Steroids.
Pyrogallol and vasopressin tachyphylaxis, *B* 649.
Pyrophosphatase, v. Adenosine triphosphatase.
Pyruvate, v. Germination.

Quinone, v. CoQ_{10}.

Radiation; the effect of radiation on the mitosis-stimulating activity of hepatectomized rat serum, *B* 226.
Radiation sensitivity, v. Diglycyl-glycine.
Radioanalyseur électronique, v. Calcium.
Radiography; mounting hard tissues for microradiography, *B* 163.
Radioimmunoassay, v. ACTH.
Ranikhet disease virus, v. RNA.
Rauwolfia alkaloids XLVII; isoreserpiline-ψ-indoxyl, its isolation, synthesis and structure, *B* 296.
Reflex activity of extensor and flexor muscles following muscular afferent excitation during sleep and wakefulness, *B* 481.
Reflexes, v. Sleep, DOPA.
Regeneration; immunoelectrophoresis of soluble proteins isolated from cellular fractions of regenerating rat liver, *B* 419.
Renal antigens, v. Membrane antigens.
Renal clearance; observations on the renal clearance and the volume of distribution of polyfructosan-S, a new inulin-like substance, *B* 248.
Renal cortical tubular epithelium, v. Calcification.
Renogram; analysis of the radioisotope renogram, *B* 201.
Reserpin, v. DOPA.
Reserpine; methyl 11-methoxy-18-oxo-3-epialloyohimban-16α-carboxylate, a new keto ester derived from reserpine, *B* 195.
Reserpine action, v. Adrenalectomy.
Reserpine treatment, v. Adrenal medullary granules.
Resorcinol method; the interference of tryptophane in the estimation of fructose by the resorcinol method, *B* 362.
Resorption, v. Heparin.
Respiratory alkalosis, v. Alkalosis.
Reticular formation, mesencephalic; responses to natural and to repeated sensory stimuli, *B* 308.
Rétine, v. Glycéraldéhyde-3-phosphate déshydrogénase.
Rétinite pigmentaire, v. Glycéraldéhyde-3-phosphate déshydrogénase.
Riboflavin in human milk, *B* 400.
Ribonuclease- und Trypsinwirkung auf isolierte Nebennierenmark-Granula, *B* 17.
Ribonucleic acid; infective ribonucleic acid extraction from poliovirus by sodium dodecylsulfate, *B* 246.
Ribosomes; free and membrane-bound ribosomes in maturing neurones of the chick and their possible functional significance, *B* 301.
Riesenaxon; das perfundierte Riesenaxon des Tintenfisches, eine neue Methode der Nervenphysiologie und ihre ersten Anwendungen, *A* 377.
Rinderblut, v. Leukocyten.
Ringbinden, v. PAS-Glykogen-Reaktion.
RNA; infectious RNA from ranikhet disease virus and its preservation with lipid treatment, *B* 100.
-; the presence of RNA of the A-U type in citrate nuclei isolated from rabbit liver cells, *B* 12.
RNA metabolism; influence of nutritional conditions on the cellular RNA metabolism *in vitro* and *in vivo*, *B* 311.
RNA and DNA metabolism in liver cells of normal and cancer-bearing mice, *B* 575.
RNS, v. Adenine.
-, v. *Tribolium confusum*.
Rückatmung; zur Registrierung von Rückatmung in Nicht-Rückatmungsventilen (non-rebreathing valves), *B* 606.
Rumex patientia L., v. Vitamin-C-Gehalt.

Saccharine, v. Hypothalamic lesions.
Saliva; secretion of saliva in the rabbit after postganglionic parasympathetic denervation, *B* 156.
Salivary glands, v. Guanethidine.
Salmo irideus, v. Photosensitivity.
Sarcoma, v. Yoshida sarcoma.
-, v. Tumor.
Sarcophaga ruficornis Fab; chiasma-like formations in the bivalents of male *Sarcophaga ruficornis* Fab. – Family *Sarcophagidae, Diptera*, *B* 87.
Saugfrequenz; gesteigerte Saugfrequenz von *Dactynotus jaceae* L. (*Homoptera, Aphididae*) bei Erhöhung des Aminosäuregehaltes in der Wirtspflanze, *B* 411.
Schizozygia caffaeoides, v. Alkaloide.
Scilla non scripta, v. Chromosomes.
Scorpions, v. Spermatogenesis.
Sea urchin; aggregation of cells isolated from vegetalized and animalized sea urchin embryos, *B* 83.
Seminal fluid, v. Potassium.
Sensation, subjective, v. Psilocybin.
Sepia officinalis, v. Nystagmus.
Serotinin, v. Adrenalectomy.
Serum, v. Fibrinolysin.
-, v. Lactic dehydrogenase.
-; the effect of radiation on the mitosis-stimulating activity of hepatectomized rat serum, *B* 226.
-; preparation of serum for paper electrophoresis from small animals, *B* 660.
Serumkomplement; über die Beeinflussung des Serumkomplementes durch Vitamin-K-Mangel beim Küken, *B* 142.
Serumproteine, v. Winterschlaf.
Sesquiterpenoids minor constituents of *Pinus parviflora*, on the relationship between (−)-δ-cadinol, (+)-δ-cadinol sesquigoyol torreyol and brown alga cadinol, *B* 519.
Sexual activity; effect of sexual activity on the adrenal gland in the northern palm squirrel, *Funambulus pennanti* Wroughton, *B* 598.
Sham rage behaviour; effects of presso- and chemoceptive components of the cat's aortic nerve on sham rage behaviour, *B* 534.
Sialic acid carboxyls; masking action of basic proteins on sialic acid carboxyls in epithelial mucins, *B* 230.
Signersche Zerlegungsapparatur; zur mathematischen Theorie der Signerschen Zerlegungsapparatur zur multiplikativen Verteilung von Substanzen zwischen nichtmischbaren Flüssigkeiten, *B* 270.
α_1-Sitosterin; 4α-Methyl-5α-stigmasta-7,24(28)-dien-3β-ol aus *Solanum tuberosum* sowie über die Identität dieser Verbindung mit α_1-Sitosterin, *B* 69.
Skeletal malformation; drug induced skeletal malformation in the rat, *B* 183.
Skelettmissbildungen, v. Thalidomide.
Skin, v. Adrenergic innervation.
-, v. Vasopressine.
Skin homografts, v. Tolerance.
Skin test; a modification of Lovell, Pryce and Boake's guinea-pig skin test, its possible use in the semi-quantitative evaluation of the activity of various diseases, including collagen disease, *B* 79.
Sleep; responsiveness and discrimination during sleep, *B* 208.
-; supraspinal inhibitory control of spinal reflexes during natural sleep, *B* 652.
-, v. Reflex activity.
Sleep, natural; somatic evoked responses in cats during natural sleep, *B* 189.
Sodium and glucose transports by *in vitro* intestinal preparations, *B* 347.
Sodium excretion, urinary, v. Pineal body.
Solanum tuberosum, v. α_1-Sitosterin.
Sophorosides; flavonoid sophorosides, *B* 7.
S-outer shell, v. Electron transfer reaction.
Speicheldrüsenchromosomen; extensives Grössenwachstum larvaler Speicheldrüsenchromosomen von *Drosophila melanogaster* im Adultmilieu, *B* 530.
Spermatocyten, v. *Sarcophaga ruficornis* Fab.
Spermatogenesis; chromatoid body in the spermatogenesis of scorpions, *B* 90.
Spermatozoon, mammalian; histochemistry of the cytoplasmic droplet in the mammalian spermatozoon, *B* 94.
Spinaceamine, v. Imidazolealkylamines.
Spinal cord, v. Catecholamines.
-, v. 5-Hydroxytryptamine.
Spinal cord transection and CCl_4 toxicity, *B* 604.

Spinal reflexes; inhibitory interaction between spinal reflexes to primary afferents, *B* 247.
–; generalized inhibition of spinal reflexes induced by cutaneous nerve stimulation in unrestrained cats, *B* 653.
–; v. Sleep, DOPA.
Spinat, v. Vitamin-C-Gehalt.
Spiro carbon atom, v. *Erythrina* alkaloids.
Spleen, v. Norepinephrine.
Spore germination, v. Germination.
Staphylococcus, v. Acid-fast cells.
Starling's law of the heart in cardiac and unstriated muscle killed by heat, *B* 34.
Starvation, v. Liver steatosis.
Steady-state-Übergänge; eine Methode zur Analyse und quantitativen Auswertung biologischer steady-state-Übergänge, *B* 166.
Steroid hormones and monolayers, *B* 2.
Steroid stereochemistry; *B* 124.
Steroide; Molekül-Massenspektrographie von Naturstoffen, *B* 178.
C_{19}-Steroide; zur Trennung der C_{19}-Steroide des Harns im Dünnschichtchromatogramm, *B* 84.
Steroids and related natural products. 14α-methyl testosterone, *B* 67.
Steroids, heterocyclic, steroidal pyrimidines, *B* 465.
Strahlenschutz; zum Wirkungsmechanismus des chemischen Strahlenschutzes, *B* 374.
Streptomyces, v. *Actinomycetes*.
Streptomyces sp., v. Enzyme(s).
Stress; the effect of stress upon the metabolism of 2-naphthylamine in mice, *B* 646.
Stress-strain; discontinuous nature of stress-strain relationship, *B* 619.
Strip transfer method applicable in two-dimensional paper chromatography, *B* 51.
g-Strophanthin, v. Convallatoxol.
Stysanus stemonites (Pers.), Corda on potato in cold store in India, *B* 86.
Subcommissural organ, v. Adenosine triphosphatase.
Substance P; the neurogenic activity of high potency substance P, *B* 366.
–; the stability of purified preparations of substance P, *B* 72.
Succinic acid dehydrogenase, v. Thyrotrophic hormone.
Succinic dehydrogenase; a histochemical study of succinic dehydrogenase activity in rat liver cancerogenesis induced by 3-methyl-4-dimethylaminoazobenzene, *B* 316.
Succinoxidase activity, v. CoQ_{10}.
Sugar, v. Hypothalamic lesions.
Sulfhydryl group concentration; changes in protein-bound sulfhydryl group concentrations in the liver of rats fed cabbage, *B* 478.
Sulfhydryl groups, v. Thyrotrophic hormone.
Sulfur; quantitative analyses of sulfur in isolated pancreatic islets of mice, *B* 74.
Sulphathiazol, v. *Bacterium anitratum*.
–, v. Induction.
Surface active drugs, v. Ammonium assimilation.
Swimbladder; the filling mechanism of the swimbladder, *A* 497.
Swimming behaviour, v. Thiourea treatment.
Sympathetic ganglia, v. Monoamines.
Sympathetic stimulation, v. α-Methylnoradrenaline.
Systematics, v. Avian systematics.

Tachyphylaxis, v. Pyrogallol.
Tadpole tails, v. Amino acid pattern.
Taurine; the effect of alkylating agents on the excretion of taurine in the urine of rats, *B* 105.
Temperatur, v. Vitamin-C-Gehalt.
Temperatur-Leistungs-Adaptation, v. Steady-state-Übergänge.
Température, v. *Vicia faba*.
Temperature, environmental, v. Hypothalamic lesions.
Temperature selection, v. Thiourea treatment.
Terpenoids, cis-trans- and trans-cis-nepetalactones, *B* 564.
4-Tertiobutylcyclohexanol; sur les équilibres d'épimérisation des cis- et trans-4-tertiobutylcyclohexanols, *B* 520.
Testes, v. Ionizing radiation.
Testicular degeneration, v. Ascorbic acid.
Testosteronacetate; Untersuchungen zur biologischen Wirksamkeit eines A-homo-Testosteronacetates, *B* 76.
Tetramethylen, v. Fatty acids.
Thalicmidine; the structures of laurelliptine, a new aporphine alkaloid, and thalicmidine, *B* 1.
Thalicmine, v. Ocoteine.
Thalidomide; effects of thalidomide in the rat foetus, *B* 645.
Theophylline plasma levels following the oral and rectal administration of theophylline *p*-aminobenzoate of piperazine, *B* 407.
Theoria, *B* 270.
Thiourea treatment; effect of thiourea treatment on temperature selection and swimming behaviour in *Phoxinus phoxinus*, *B* 485.
Threonine, v. Cholesterol content.
Thrombocytenzahl; die Wirkung von Eiweissfraktionen normaler menschlicher Sera auf die Thrombocytenzahl der Maus, *B* 136.
Thymectomy, v. Homograft response.
Thyraminwirkung, v. DOPA.
Thyroid activity; modification of thyroid activity by melatonin, *B* 15.
Thyroid catecholamines, v. Catecholamines.
Thyroid hormone synthesis during hypothermia in rats, *B* 103.
Thyrotrophic hormone; acute effect of thyrotrophic hormone on the concentration of succinic acid dehydrogenase and sulfhydryl groups in the thyroid gland of the rat, *B* 543.
Thyroxine administration and the uptake of amino acids by liver cell nucleolus, nucleus and cytoplasm, and by other cell types, *B* 399.
Tolerance, acquired; an attempt at the achievement of acquired tolerance of skin homografts in post-natal life, *B* 28.
Tooth mineral; the nature of carbonate contents in tooth mineral, *B* 620.
Torreyol, v. Sesquiterpenoids.
Transannular reaction between ester and amide groups. Formation of a cyclol peptide derivative, *B* 125.
Transplantability, v. Ascites tumor.
TRF, v. TSH-releasing factor.
Trials, chemotherapeutic, v. Tubercle bacilli.
Triazine derivates; ulteriori dati sull'attività dei derivati triazinici nelle infezioni da virus, *B* 234.
Tribolium, v. Feeding response.
Tribolium confusum; isolation and characterization of a polyhydroxy compound in adult *Tribolium confusum* Duval, *B* 404.
Tribolium confusum, Duval; synthesis and breakdown of proteins and ribonucleic acid in *Tribolium confusum*, Duval, *B* 344.
Trigeminal ganglion cells; on the topographical differences in the localization of certain enzymes in trigeminal ganglion cells of rat, *B* 238.
Triiodo-L-thyronine, v. Phosphorylase.
Trypsinwirkung, v. Ribonuclease.
Tryptophane, v. Resorcinol method.
TSH-releasing factor; an *in vivo* bioassay for TSH-releasing factor (TRF), *B* 480.
Tubercle bacilli; the suitability of intracutaneous infection in guinea-pigs induced by virulent tubercle bacilli for use in chemotherapeutic trials, *B* 23.
Tuberculous infection; on the possibility of spontaneous tuberculous infection in the course of long-term trials in mice, *B* 32.
Tuberkulin; Isolierung der tuberkulinaktiven Proteine aus dem Tuberkulin mit Hilfe von Dextran-Gel, *B* 3.
Tubular lesion, v. Glomerular and tubular lesions.
Tumor; induction of tumors in rats by subcutaneous implants of surgical sponges, *B* 424.
Tumoren, v. Neoplasmen.
Tumorigenesis, v. Chloroacetone.
Tumour; methylhydrazine derivatives, a new class of cytotoxic agents, *B* 129.
Tunicaten, v. Vanadocyten.
Turbellaria, v. Porphyrin.
Tyramin, v. Urämiesyndrom.
Tyrosine, v. Norepinephrine.

Urämiesyndrom; zur Pathogenese des Urämiesyndroms. Über den Einfluss von Tyramin auf die Acetoinsynthese aus Brenztraubensäure in Rattenleberhomogenat, *B* 33.
Urin, v. Aminosäuren.
Urinary excretion, v. C^{14}-Histamine.
Urine, v. Lipid metabolism.
–, v. 3α,17α,21-trihydroxy-5α-Pregnane.

Vaccinia virus; inhibition of vaccinia virus multiplication by 2-carboxymethylmercapto-4-amino-5-(-*p*-chlorphenyl)-pyrimidine, *B* 196.
Vanadin, v. Vanadocyten.
Vanadocyten; submikroskopische Struktur von Vanadocyten. Ein Beitrag zur Vanadin-Anhäufung bei Tunicaten, *B* 232.
Varianz der Ablesefehler, v. Einfadenelektrometer.
Vascular permeability, v. Parathyroidectomy.
Vasodilating agent, v. Eledoisin.
Vasopressin; the concentration of vasopressin and oxytocin in the human hypothalamo-hypophysial system, *B* 489.
–, v. Pyrogallol.
Vasopressine; the effect of vasopressine on the circulation of the rat organs, with special consideration of the skin, *B* 365.
Venom of the Colombian arrow-poison frog *Phyllobates bicolor*, *A* 329.
Vestibular system, v. Nerve activity.
Vincaleukoblastine; preparation of tritiated vincaleukoblastine by the Wilzbach technique, *B* 434.
Vicia faba; l'effect de la basse température sur l'incorporation de précurseurs des acids nucléiques et des protéines dans les cellules du méristème radiculaire de *Vicia faba*, *B* 184.
Vincadifformin und Minovin, zwei weitere racemische Alkaloide aus *Vinca minor* L., *B* 311.
Vinca minor, v. Vincadifformin.
Virus, v. Leukosis virus.
Visual cortex, v. Colliculus.
Vitamin-C-Gehalt; Einfluss der Temperatur auf den Vitamin-C-Gehalt während des Wachstums von englischem Spinat (*Rumex patientia* L.), *B* 355.
Vitamin-K-Mangel, v. Serumkomplement.
Vitamintrennungen an Ionenaustauscherpapieren, *B* 95.
Vorhof, v. Digitoxigeninwirkung.

Wachstumshemmung; die durch animalische Mucoproteine verursachte Wachstumshemmung, *B* 630.
Wakefulness, v. Reflex activity.
Walker carcinosarcoma, v. Phenobarbital, Enzymes.
Wasserverdunstung, v. Zebra finch.
Weight, v. X-ray irradiation.
Wetterkarte, *B* 494.
Wilzbach technique, v. Vincaleukoblastine.
Winterschlaf; serologisch-hämatologische und immunologische Untersuchungen an winterschlafenden Fledermäusen (*Myotis myotis* S.), *B* 596.
Wool production; effect of climatic factors on wool production, B *203*.
Wound tissue, v. Histamine formation.

Xenopus laevis, v. Konversion.
Xenopus larvae, v. Metamorphose.
X-irradiation; effects of X-irradiation during hibernation on tissue catecholamine contents, *B* 418.
–, v. Anti-bacterial agglutinins.
X-ray irradiation; weight of rat embryos after X-ray irradiation, *B* 263.

Yeasts, v, Protoplasts of yeasts.
Yoshida sarcoma; hormonal influence on metastatic spread of the Yoshida sarcoma, *B* 199.
Young's modulus, v. Arterial rheology.

Zebra finch; evaporative cooling in the zebra finch, *B* 603.
Zellmembran, v. Ionenpumpen-ATPase.
Zellteilung; Beobachtung der Bildung zweier zweikerniger Zellen aus einer Zelle der Gewebekultur ohne experimentellen Eingriff, *B* 529.
Zn^{++}, v. EMS.
ZNS; Prinzipien cerebraler Organisation, *A* 511.
Zucker; Oxydation der Zucker durch Süssmandelemulsin (Rohferment nach Helferich), *B* 416.
Zweikernige Zellen, v. Zellteilung.

TABLE DES AUTEURS - AUTORENREGISTER
TAVOLA DEGLI AUTORI - INDEX OF AUTHORS
